

GLASS TUBING AND ROD

Goodfellow Ceramic and Glass Division are able to supply glass tubes and rods to your requirements. These range from standard shapes and sizes through to custom made high precision products. The lists below give an indication of the typical shapes, sizes and materials available.

Size: The smallest glass tubes are around 0.05mm I.D. x 0.08mm O.D.
Larger tubes up to about 300mm I.D., although larger diameters can be supplied in some materials

Rod sizes: From 0.07mm to 40mm or larger

Tolerance: We specialize in precision bore tubing. For small diameters, the tube is re-drawn on a special mandrel; for larger diameters, it is shrunk on to a precision mandrel

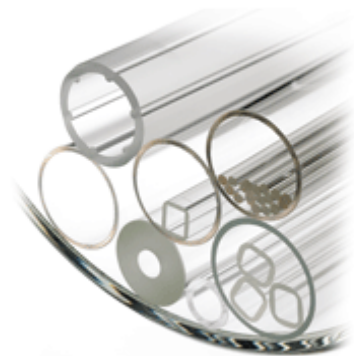

Rods can be ground and polished to high precision

Shapes: Round
Capillary
Multi-hole
Profiled
Square and rectangular

Fabrication: We supply tubular components to your drawings

Materials: Aluminosilicate glass
Borosilicate glass
Fused silica
Lead free glass
Lead glass for electronics & nuclear shielding
Quartz for high temperature and optical use
Soda lime glass
Vitreous Carbon

Special materials: Please ask

Glass Tubing
