RoHS Compliance Statement

Metals & Materials Limited (Goodfellow) is the holding company for Goodfellow Cambridge Limited, Goodfellow Corporation, Goodfellow SARL, Goodfellow GmbH and Goodfellow (Shanghai) Trading Co. Ltd.

The Restriction of Hazardous Substances (RoHS) regulations 2015 (as amended by Directive 2015/863), implements the provisions of the European Parliament and Council Directive on the Restrictions of the use of certain Hazardous Substances in electrical and electronic equipment (RoHS 3).

These regulations came into force on 22nd July 2019 and state that any new electrical and electronic equipment (EEE) introduced into the market; within certain product categories (with some exemptions) may no longer contain the following chemicals above the specified maximum concentration values:

Restricted material	Maximum Concentration Value (MCV)
Lead (Pb)	< 0.10% = < 1000ppm
Mercury (Hg)	< 0.10% = < 1000ppm
Hexavalent Chromium (Cr VI)	< 0.10% = < 1000ppm
Cadmium (Cd)	< 0.01% = < 100ppm
Polybrominated Biphenyls (PBB)	< 0.10% = < 1000ppm
Polybrominated Diphenyl Ethers (PBDE)	< 0.10% = < 1000ppm
Bis(2-ethylhexyl) phthalate (DEHP)	< 0.10% = < 1000ppm
Butyl benzyl phthalate (BBP)	< 0.10% = < 1000ppm
Dibutyl phthalate (DBP)	< 0.10% = < 1000ppm
Diisobutyl phthalate (DIBP)	< 0.10% = < 1000ppm

Goodfellow will work closely with its suppliers and customers alike to ensure total compliance with the RoHS regulation is achieved.

Any information provided by Goodfellow concerning the RoHS status of its materials will be provided based upon information supplied by the manufacturer or supplier, or as a result of internal or external testing.
